

HPE Compute Fundamentals, Rev. 26.21

Course description

This 3-Day training course provides a comprehensive introduction to the latest HPE server products, equipping learners with the knowledge to understand HPE Compute solutions and align them with customer business needs and desired outcomes. Participants will learn how to evaluate customer scenarios, select the appropriate HPE sizing and design tools, and identify key deployment resources. The course also offers hands-on experience implementing compute solutions using essential tools such as HPE iLO, UEFI, and Intelligent Provisioning, ensuring learners gain both the technical and consultative skills needed for successful solution delivery.

Course ID	0001215552
Course format, Typical duration	Select one: ILT - Instructor Led, 3 days VILT - Virtual Instructor Led, 3 days
Skill level	Entry
Delivery languages	English
Lab required	No

Ideal candidate for this course

Typical candidates for this course are HPE partners who interpret customer requirements to design, install, configure, and manage HPE compute solutions.

Roles that will benefit from this course are:

- Technical Consultants
- Systems Engineers
- PreSales Engineers
- Solutions Integrators

Suggested prerequisites

None

Topics

- **HPE Compute Solutions Overview**
 - HPE Compute Portfolio
 - HPE compute components
 - HPE iLO and Other Built-in Server Features
 - HPE iLO information about server components
 - HPE iLO, Secure Boot, access UEFI, access Intelligent Provisioning
 - Overview of HPE Compute Management Options
- **Introduction to Designing HPE Compute Solutions**
 - Assess Customer Requirements
 - HPE Pre-Sales Tools
 - HPE Power Advisor and other tools, such as Solution Sizer, One Config Advanced, and Demonstration Portal
- **Manage Individual HPE Servers**
 - Deploy HPE Servers
 - Workload profiles
 - Firmware updates for HPE Compute
 - Explore the HPE iLO firmware repository; explore SPPs
 - Manage HPE Compute with HPE iLO

Objectives

After you successfully complete this course, expect to be able to:

- Demonstrate knowledge of new HPE server products and solutions
- Demonstrate knowledge of new services, products, and solutions
- Determine basic customer business needs, requirements, and desired outcomes
- Given a customer scenario, identify HPE tools that will help you determine the appropriate size and design for an HPE solution
- Identify resources for deploying an HPE product or solution
- Install an HPE product or solution
- Implement an HPE compute solution using tools such as HPE iLO, UEFI, and Intelligent Provisioning
